

NEONATAL INTENSIVE CARE UNIT (NICU)

This unit is situated on the 6th floor. The unit admits patients from the ages of 0-12. It has isolation cubicles that are designed to provide the best possible care to delicate young lives. While the unit welcomes all young patients, please note that the unit does not admit cardiac and neurological patients.

It is advised that parents bring nappies, wipes, and toiletries for their children as they will not be provided by the hospital. Breastfeeding is encouraged as it is known to have numerous health benefits for both the mother and baby.
